Yes, You Can — And You Did!

This moment is yours, girls. You earned every bit of it.

Our young ladies from Kanhai and Siwan have done us proud with their scores in the Class X Board exams this March. The two centres share an average of 78 and 77.40% respectively. We're also pleased to add that ten of the fifteen girls have opted for Science in the 11th grade. And Lakshay Dhawan at 95% has no time for celebrations...he's already snowed under NEET preparatory classes and regular school.

Congratulations, dear students. Buoyed by this success and your new-found confidence, we are sure multiple avenues will open up for you all.

A Month of Milestones: Celebrating May's Achievements in Education

May saw excitement sweeping across senior classes as Board results tumbled out. Lakshay from Taraori excelled with 95% while Balram went on to win accolades for his display at the State Gallery of Art in Telangana. Soft-skills learning took an all-new dimension in finesse and sensitivity at the dining table before we wound up for the summer break.

For Lakshay from Taraori, the journey has just begun.

With a remarkable 95% in his board exams, Lakshay has shown what quiet determination and consistent effort can achieve. His journey reflects not just academic success, but the promise of many milestones ahead.

The Flora Finds Its Frame of Honor

Last month, this stunningly intricate sketch by Balram Kumar was selected for display at the Chitramayee State Gallery of Art in Hyderabad. This month, it walked away with the Award of Sponsorship for Solo Show. Congratulations, and best wishes once again, Balram.

Lessons That Go Beyond Books

A very endearing session on table manners was conducted across all centres on the 27th and 31st of May. The students thoroughly impressed and charmed us with their impeccable conduct. The mock sessions had a complete table laid out for four, and each student played a role to demonstrate behaviour, both polite and otherwise. Feedback from observers left no room for ambiguity among participants. Great learnings indeed.

Sun. Smiles. Surprises. Welcome to Summer Camp!

June may be the cruellest month, but it's also the time to pick up a new skill, renew a forgotten passion, pick up the threads of an unfinished craft. So, as we put a brief pause on schoolbooks, our centres will transform into activity hubs that will give much-needed respite from the heat and the boredom. We'll be pulling out our storybooks and board games, badminton rackets and carrom coins to retreat into the cool corners of our centres, like the good old days. What's more, some students have even offered to teach their mates a few skills they're adept at. These include art, dance and hairstyling too!

We also have students from IIT Madras selflessly offering conversational English sessions online, accessible to all students. Thank you, dear volunteers, for this much-needed

Well, you have a wonderful holiday too! We'll meet you once our centres rev up and roll back. Warm regards, and have a pleasant June!
